READ THESE INSTRUCTIONS CAREFULLY PRIOR TO USE!

INSTRUCTIONS:

Congratulations on your purchase of the MEGA-BATOR™! The world's most advanced, hands-free stroker with a mobile device attachment. Now you can enjoy thrilling spinning, stroking and thrusting action hands-free while enjoying your favorite videos! The MEGA-BATOR'S™ powerful suction cup allows you to stick it to any horizontal or vertical smooth surface for the ultimate in hands-free enjoyment. MEGA-BATOR™ comes in your choice of pussy, ass, or mouth pleasure toppers.

With no batteries to replace and no messy power cords to get in the way of the fun, this waterproof masturbator is powered by a lithium battery and super-strong motor that delivers amazing thrills and endless pleasure combinations! Unlike ordinary automatic strokers that either spin around or stroke up and down, the advanced MEGA-BATOR™ combines both mind-blowing movements for the most realistic sensations ever reproduced. The MEGA-BATOR™ spins, strokes, and thrusts simultaneously, thanks to the exclusive "Sleeve Suspension System" and dual gear drives featured inside each mechanism. The reciprocating motion allows the textured pleasure sleeve to rotate while the powerful gear thrusts up and down, giving you the most lifelike stroking session ever delivered from a masturbation device.

INCLUDES:

- 1 Elastomer Pleasure Topper
- 1 Textured Insert
- MEGA-BATOR™
- Suction Cup Base
- Mobile Device Holder
- USB Charging Cord
- Moist Body Lotion
- Toy Cleaner

BEFORE USE:

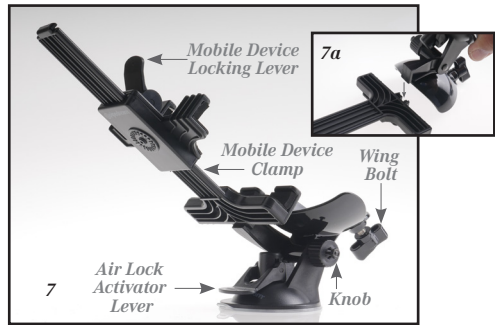

Before using, plug the MEGA-BATOR™ into any USB port (2) to charge it. The LED light will blink while the unit is charging and turn solid once the charging is complete. Approximate run time is 1.5 hours and approximate charge time is 2 hours.

Push the charging pin (3) firmly into the bottom of the MEGA-BATOR™. Remove the pleasure topper cap, remove the textured insert and discard the plastic shipping retainer (1a). Replace the textured insert which will now connect to the powerful magnet (4) inside the MEGA-BATOR™ chamber.

After charging, remove the USB cord from the unit and attach the suction cup base to the bottom of the main unit by screwing in the wing bolt (5) to lock the unit onto the base.

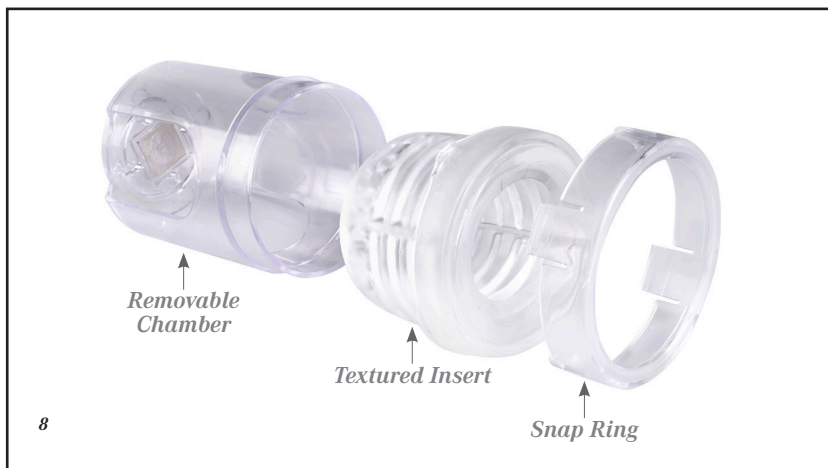

Loosen the knob (6) above the suction cup and pivot the unit to allow access to attach the mobile device holder. Slide the mobile device holder (7a) into the channel and clamp down your mobile device with the locking lever. Do not use mobile devices in wet environments. Locate a smooth surface to apply the powerful suction cup base onto and lock the suction cup by pressing down on the air lock activator lever (6). Position your MEGA-BATOR™ for usage and tighten the knob (7) to lock it in place. Before you are ready to enjoy your MEGA-BATOR™, apply a generous amount of Moist Body Lotion into the textured insert and the opening of the pleasure topper (1).

USAGE:

MEGA-BATOR™ is multi-speed and has rotation and counter rotation actions. To turn it on hold down the power button (4). To start thrusting press the up arrow. Pressing the up and down arrows multiple times will increase or decrease the thrusting speed. To start rotation press the left and right arrows. Pressing the left and right arrows multiple times will increase or decrease the rotational speed.

CARE:

Clean up is a snap! Remove the pleasure topper and textured insert. Pry the snap ring (8) open to remove the insert. Wash your MEGA-BATOR™ with soap and water and disinfect with Toy Cleaner. Wipe off any excess water with a soft towel before recharging.
