- Produced in line with DIN 5139
- High-quality chrome vanadium blades prevent cutting edges from chipping
- Consistent hardness of 60–61 HRC guarantees high edge retention and optimum effective lengths of blades
- The blades are polished and protected against corrosion with clear lacquer
- The wooden handle is made from hornbeam and varnished nut brown

Bevelled-edge chisel set

Art. no. **0715 653 001**

Contents: One blade width each of 6, 10, 12, 16, 20 and 26 mm
