

## ENGLISH

### HAIRDRYER VT-2328 BK

The hairdryer is intended for hair drying and styling.

#### TOURMALINE IONIC+ CERAMIC COATING TECHNOLOGY

When heated up, the innovative Tourmaline Ionic+ Ceramic Coating grid coating emits negative ions, which seal the hair scales, reduce static charge and make your hair smooth like silk.

#### DESCRIPTION

- Air supply speed switch 0/1/2
- Cool shot button
- Nozzle
- Air inlet grid
- Foldable handle
- Hanging loop

#### ATTENTION!

Do not use the unit near containers filled with water (such as bath, swimming pool etc.) and in wet basements.

Immediately after using the hairdryer in a bathroom, disconnect the power plug from the mains socket, as water closeness is dangerous even if the unit is switched off.

For additional protection you can install a residual current device (RCD) with nominal operation current not exceeding 30 mA into the bathroom mains; contact a specialist for installation.

#### SAFETY MEASURES

Before using the unit, read these instructions carefully. Keep these instructions for further reference.

Use the unit for intended purposes only, as specified in this manual. Mishandling the unit can lead to its breakage and cause harm to the user or damage to his/her property.

- Before using the unit for the first time, make sure that the voltage in your mains corresponds to the voltage of the unit.
- To avoid fire, do not use adapters for connecting the unit to the mains.
- Do not use the unit outdoors.
- Do not immerse the power cord and plug into water or other liquids.
- Do not touch the unit body and the power plug with wet hands.
- Before using the unit, examine the power cord closely and make sure that it is not damaged.
- It is recommended to unwind the power cord to its full length while using the unit.
- The power cord should not:
  - touch hot objects,
  - run over sharp edges,
  - be used as a handle for carrying the unit.
- Use only the attachments supplied.
- Do not switch the unit on in places where aerosols are sprayed or highly flammable liquids are used.
- Hair spray should be applied only after hair styling is finished.
- Do not use the unit while taking a bath or a shower.
- Never leave the operating unit unattended.
- Take the switched on hairdryer by its handle only.
- Do not place and do not keep the unit in places, where it can fall into a bath or a sink filled with water, do not immerse the unit into water or any other liquids.
- If the unit is dropped into water, unplug it immediately, and only then take it out of the water.
- Do not use the unit when you are drowsy.
- Do not use the unit to style wet hair or synthetic wigs.
- Avoid contact of hot surfaces of the unit with your face, neck or other parts of your body.
- Never block the air inlets of the hairdryer, do not place the hairdryer on a soft surface, such as a bed or a couch, where the air inlets may be blocked. Keep the air inlets free of lint, dust and hair etc.
- Never insert any foreign objects into the unit body openings.
- Avoid getting hair into the air inlet grid during operation of the unit.
- Do not direct hot air into your eyes or other heat-sensitive parts of your body.
- The nozzle gets hot during operation. Let it cool down before removing it from the unit body.
- Do not leave the unit unattended. Unplug the unit before cleaning, removing or attaching the nozzle, and also when you are not using the unit.
- Before plugging the unit in, make sure that the air supply speed switch is set to the position «0».
- Never pull the power cord when disconnecting the unit from the mains, take the power plug and carefully remove it from the mains socket.
- Do not allow children to touch the unit body and the power cord during the unit operation.
- This unit is not intended for usage by children under 8 years of age.
- This unit is not intended for usage by people (including children over 8) with physical, neural and mental disorders or with insufficient experience or knowledge. Such persons may use the unit only if they are under supervision of a person who is responsible for their safety and if they are given all the necessary and understandable instructions concerning the safe usage of the unit and information about danger that can be caused by its improper usage.
- Do not leave children unattended to prevent using the unit as a toy.
- For children safety reasons do not leave polyethylene bags, used as packaging, unattended.

**Attention!** Do not allow children to play with polyethylene bags or packaging film. **Danger of suffocation!**

- Transport the unit in the original package only.
- Keep the unit out of reach of children and disabled persons.
- Never use the unit if the power cord or the power plug is damaged, if the unit works improperly or after it was dropped.
- Do not repair the unit by yourself. Do not disassemble the unit by yourself, if any malfunction is detected or after it was dropped, unplug the unit and apply to any authorized service center from the contact address list given in the warranty certificate and on the website [www.vitek.ru](http://www.vitek.ru).

**HAIR CARE**

Use the get the best results, wash your hair with shampoo (before drying and styling), remove excessive moisture with a towel and comb your hair.

**Quick drying**

Set the switch (1) to the position «1» or «2» and dry your hair. As you shake off excessive moisture from the hair with your hand or a comb, constantly move the hairdryer above your hair.

**Straightening**

Set the switch (1) to the position «1» or «2» and dry your hair. When the hair is almost dry, switch the unit off. Install the nozzle (3) and then set the switch (1) to the position «1».

Divide your hair into locks, start straightening from the lower layers. Using a plain or a round brush, comb the hair downwards and simultaneously direct hot air at your hair. This way, slowly straighten each lock from root to end. After you finish straightening the lower locks, start straightening the middle locks and finish with upper locks.

**Natural locks**

Set the switch (1) to the position «1», grip locks between fingers tightly, turn them in the direction of natural curling. Dry your hair, directing the airflow between fingers. To fix the styled lock, direct "cool" air flow at the lock. To do this, press and hold the button (2).

**Styling**

Attach the nozzle (3) to the hairdryer and then set the switch (1) to the position «1».

Divide your hair into locks and create the required hair style using a round hairbrush. During hair styling, direct the air flow straight at your hair. If you want to fix the hairstyle, direct the cool air flow at each lock for several seconds.

Styling time depends on the hair type, choose it individually.

**Overheating protection**

Overheating protection switches the hairdryer off if the outgoing air is too hot. If the hairdryer is switched off during operation, set the switch (1) to the «0» position, unplug the hairdryer and make sure that the inlets and outlets are unblocked. Let the hairdryer cool down for 5-10 minutes and switch it on again. Do not block the air inlets during unit operation and avoid getting of hair into its air inlet.

**CLEANING AND CARE**

The hairdryer is intended for household usage only.

- Set the switch (1) to the «0» position, disconnect the hairdryer from the mains and let it cool down.
- Wipe the unit body with a damp cloth and then wipe it dry.
- Clean the air inlet grid (4) with a brush.
- Do not immerse the unit into water or any other liquids.Do not use abrasives and solvents to clean the unit body.

**STORAGE**

- Disconnect the unit from the mains and clean it.
- Never wind the power cord around the hairdryer, as this may damage the unit. Handle the power cord with care, do not pull, twist or stretch it, especially near the power plug or at the junction point. Straighten the cord periodically if it gets twisted during hairdryer operation.
- You can store the hairdryer by hanging it by the loop (6) provided that no water gets on the unit in this position.
- Keep the unit away from children in a dry cool place.

**DELIVERY SET**

Hairdryer – 1 pc.  
Nozzle – 1 pc.  
Instruction manual – 1 pc.

**TECHNICAL SPECIFICATIONS**

Power supply: 220-240 V ~ 50/60 Hz  
Power consumption: 1500-1700 W

*The manufacturer preserves the right to change the specifications of the units without a preliminary notification*

**Unit operating life is 3 years**

**Guarantee**

Details regarding guarantee conditions can be obtained from the dealer from whom the appliance was purchased. The bill of sale or receipt must be produced when making any claim under the terms of this guarantee.

**НУТЗУНГ ДЕС ХААРТРОКНЕРС**

Haardryer – 1 pc.
