OPERATION INSTRUCTIONS

- When you plugging in the hotplate, the power indicator will light up. Before plugging in your new hot plate, check to see that the electric circuit is not overloaded with other appliances. This unit should always be operated on a separate 220-240 volt, AC outlet which is able to supply min.16A. Be certain that your unit is resting level on the countertop. Avoid using pans that are unstable and easily tipped.
- Place a pan on a heating element. Turn the Thermostat out of the "OFF" position. The pilot light will glow indicating the heating element is powered, and heating will begin immediately. The degree of heating is adjustable with the thermostat between "OFF" and "MAX".

The metal surfaces will become hot. Do not touch while in use. When cooking is finished, turn the thermostat back to the "OFF" position. If the hotplate is not to be in use for a long period of time, it is recommended to unplug the unit from the outlet. This helps to prevent accidental burns.

Reasonable care will insure many years of service of your unit. Avoid dropping items on the heating elements.

1. Always unplug unit from electrical outlet and allow to cool before cleaning.

2. NEVER IMMERSE IN WATER.

3. Use damp soapy cloth or sponge to clean surface of hotplate, chrome burner ring, drip pan and base. The sponge or cloth should only be damp without water dripping to avoid water leaking into the hotplate.

4. Any servicing other than cleaning should be performed by an authorized service center.

NOTE:

1. A short power supply cord is provided to reduce the risk of personal injury resulting from becoming entangled in or tripping over a longer cord. If a longer cord is required, extension cords are available from local hardware stores and may be used if care is exercised in their use. If an extension cord is used:

- the marked electrical rating of the extension cord should be at least 16A, 250V, 3000W;

- the longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over nor should it touch any part of the hotplate body.

2. Please use the flat-bottomed pans. We recommend use frying pan because it can fully contact with hot plate, make sure got the highest heat.
