Desktop cooler SU-200

This CPU-cooler with a smooth running 92mm fan and a TDP of up to 115W ensures a reliable cooling of your CPU.

The SU-200 is compatible to several Intel®- and AMD®-sockets. Thanks to the pre-mounted mounting brackets for AMD® and the accessories kit for Intel®, it fits on most processor platforms and can be mounted fast and easy. 45 aluminum fins and three 6mm copper-heatpipes ensure a perfect cooling performance. The 92mm fan with 4pin PWM-connector can be regulated by temperature and stays silent with a max. of 25.0dbA.

With a height of 121mm the cooler finds preferred usage in smaller cases. The copper-heatpipes guarantee an optimum of heat dissipation and cooling efficiency.
