

Flight

Thank you for purchasing Flight! We wish you many happy moments with the instrument. Please take your time to read through this instructional booklet to become acquainted with your new Flight ukulele, be it Soprano, Concert or Tenor size.

The ukulele has become one of the most popular instruments the world over, including the charming little country of Slovenia. Just across Italy's eastern border, Slovenia is home to the founders of Flight Musical Instruments. Caught by the ukulele bug early on, Flight began developing ukuleles with an emphasis on terrific tone and value. We are very proud of the outcome: a unique design matching the light-hearted nature of the instrument, paired with the best woods in the market.

UKULELE CHORDS

Get to know the names of the chords and how they are positioned. This will help you build up your speed when you learn new songs as you will start to recognize familiar chords.

| | | | | | | |
|---|--|--|--|--|--|---|
| C  | D  | E  | F  | G  | A  | B  |
| Cm  | Dm  | Em  | Fm  | Gm  | Am  | Bm  |
| C7  | D7  | E7  | F7  | G7  | A7  | B7  |
| Cmaj7  | Dmaj7  | Emaj7  | Fmaj7  | Gmaj7  | Amaj7  | Bmaj7  |
| Cm7  | Dm7  | Em7  | Fm7  | Gm7  | Am7  | Bm7  |

WHERE TO STRUM

If you strum your ukulele too close to the bridge it may sound tiny or too bright (which is sometimes a desirable effect) as the strings have very little output. The 'sweet spot' for strumming the soprano and concert ukes is around the point where the neck meets the body. The 'sweet spot' for tenors is a little closer to the bridge.

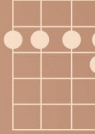

STRUMMING TECHNIQUE

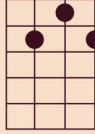

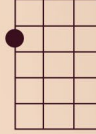

Moving your arm rapidly up and down gets tiring very quickly. When you strum, use your wrist rather than your whole arm. When strumming down, you should be hitting the strings with your nail; when strumming up, with the fleshy tip of your finger.

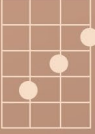

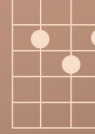

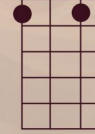

UKULELE CHORD PROGRESSIONS

Here are some popular chord progressions to try out. You can put various chords together and create a song by yourself. Practice is very important: little and often is best. If you can practise for just 15 minutes every day, that will make you a better uke player than practising for two hours just once a week. Your fingers need to adjust and get used to stretching when changing chords. Even if it is your first ever musical instrument, you will become a uke master in no time!

ABOUT THE INSTRUMENT AND TUNING:

The four main members of the ukulele family are:

Soprano FLIGHT NUS310

Size: 21"

Tuning: GCEA

Number of frets: 12-15

Sound: Punchy and traditional

Concert FLIGHT NUC310

Size: 23"

Tuning: GCEA

Number of frets: 15-20

Sound: Full and mellow

Tenor FLIGHT NUT310

Size: 26"

Tuning: GCEA

Sound: Good for classical or jazz pieces, where individual strings are plucked

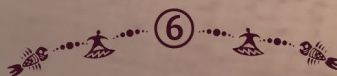

Baritone FLIGHT NUB310

Size: 30"

Tuning: DGBE

Sound: Deeper sound, great for blues and fingerpickers
