ALSEYE ®

ALSEYE X12 Fan – born to be cool!

The 120mm RGB fan of the X12 series from ALSEYE impresses with its frameless fan design and its 24 integrated, addressable RGB LEDs.

Rubberized pads underneath the mounting holes, which also enable invisible screw fastening, reliably prevent the transmission of vibrations to the PC case and ensure smooth operation at up to 1200rpm and 26.3dBA.

The fan can only be used as an extension of the X12 fan set.

- ✓ 24 luminous RGB LEDs
