

TUTELA TRANSMISSION FE-GEAR Cod. 2313

DESCRIPTION

Lubricant for manual and automated transmissions of commercial vehicles. To be used even in the presence of carbon synchronizers.

CHARACTERISTICS

- | Multifunctional fluid and can be used in the clutch and torque converters in particular - ZF intarder.
- | Features anti-wear for long life durability of the transmission components (gears, bearings) for extended change intervals.
- | Total general compatibility with metals, alloys and seals contained in transmissions of recent generations.
- | Advanced performance of fuel economy to help reduce emissions.

ADVICE ON USE

Replacement intervals as indicated by manufacturer
