## New Mechanism

**New mechanism is designed for high-end security. The easy mounting feature overfulfills all expectations. Thanks to its new mechanism features, it covers all wall failures.**

### **Hidden tab with spring**

The hidden tab with spring prevents pricking and similar incidents.

### **Unenergized frame**

For extra security, the frame is prevented from being energized through the tabs during assembly.

### **Safety**

The new mechanism has a cover that increases safety and cuts off contact with stressed areas.

### **D-shaped earthing contacts**

Thanks to grounding contacts in D shape, it ensures the sustainability of the contact pressure applied to switch.
