SIGNATURE SOUND

Hearing is Believing.

This speaker's True360 omnidirectional sound ensures that everyone can enjoy equally excellent sound, from any angle. Three evenly distributed tweeters, a front facing mid-range driver and a powerful woofer offer well-balanced sound throughout your home. Tuned by acclaimed Bang & Olufsen sound engineers, this speaker delivers the superior authentic audio performance listeners have come to expect from B&O products.

BANG & OLUFSEN

TOUCH INTERFACE

Looks Cool, Feels Cool.

The Beoplay M5 wireless speaker is a chic addition to your modern space, designed to blend in while standing out. The crafted aluminum top of this speaker is pearl blasted and anodized for a premium, matte finish. The cool, smooth surface incorporates volume and connection controls that are mesmerizing to touch and that respond with a viscous dampened movement.

MULTI-ROOM TECHNOLOGY

Connect Spaces with Sound.

Cutting edge multi-room technologies let you connect the spaces throughout your home with beautiful music. Let the music flow by connecting multiple Beoplay M5 speakers together or connect to other multi-room enabled speakers like the Beoplay A6, A9 and other third-party speakers that are compatible with Chromecast built-in (previously branded Google Cast). The M5 also supports Beolink Multi-room technologies, or you can connect via Bluetooth, Apple AirPlay or DLNA.

BANG & OLUFSEN

BANG & OLUFSEN APP

Sound the Way You Like It.

Take control of your listening experience by personalizing your speaker with the Bang & Olufsen app. This intuitive app lets you adapt your current sound profile to your activity and environment using ToneTouch, and can even optimize your speaker's position to maximize sound quality. Listen to what you want, when you want, where you want.
