THE PASSION FOR PERFECTION

With over 180 race victories and 20 World Championships, McLaren Racing is one of the most successful names in the history of Formula 1. During five decades of racing, the team has become famous for its iconic vehicle designs and technical innovation.

Nothing symbolises this more than the stunning McLaren F1 racing car. Developed specifically for the 2022 season, it combines a smooth "organic" form with state-of-the-art technology. It provided the perfect challenge for the LEGO® Technic design team as they tried to recreate the McLaren 2022 Formula 1 car in Technic elements.

2021 Bahrain Grand Prix

CREATING A NEW FORMULA

The new regulations for the 2022 season presented McLaren Racing's design team with the exciting challenge of developing an entirely new race car from scratch.

With a format that looks to encourage more competitive racing, the team improved the car's aerodynamic wake to allow for closer contests with more thrilling maneuvers. The new, enhanced performance also demanded the development of completely new braking and suspension systems.

"Developing a new Formula 1 car is like assembling a puzzle. We have built significant momentum over recent seasons, and it's important that we continue our upward trajectory as we enter new, uncharted territory. The team has worked hard to embrace the new formula, and we are excited to go racing in a new chapter of the sport."

Andreas Seidl, Team Principal, McLaren F1

“DEVELOPING A NEW FORMULA 1 RACING CAR IS LIKE DEVELOPING AND ASSEMBLING A PUZZLE

Andreas Seidl, Team Principal, McLaren F1

2021 French Grand Prix

LARS KROGH JENSEN
Designer
LEGO® Technic

THE PERFECT PARTNERSHIP

Frequent check-ins between the two design teams were vital to ensuring the final model captured both the look and spirit of the real 2022 McLaren Formula 1 racing car. James Key, Executive Director, Technical at McLaren F1 was pleased with the flexibility and collaboration of the Technic designers – "We began working on the next generation of racing car as soon as the blueprint is revealed. From there the process is almost continuous until the very last moment. We were delighted to have that agile working relationship with the Technic team. The final result looks fantastic."

FROM THE DESIGN TEAM

The biggest challenge LEGO® designer Lars Krogh Jensen faced while recreating the LEGO Technic version of the McLaren Formula 1 car was the fact that the real racing car was still under development. *"It was exciting following the process and seeing their car evolve, but of course, it also meant I was constantly having to make adjustments to our model."* The team started with a sketch build, which quickly revealed extra stability would be needed due to the model's 65 cm (25.5 in.) extended length. Capturing the smooth rounded lines of the car's design in rigid Technic elements was the next big test. But for Lars it was also about the features and functions: *"It wouldn't be a real Technic model without things like the working differential and steering."*
