WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

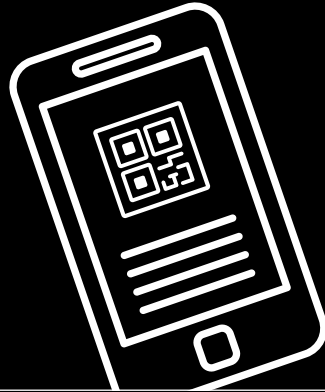

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

In 1600 a major reconstruction began, resulting in the current structure which has been preserved in its integrity until today, initially by feudal masters and later by the Japanese government. Mazes of intricate pathways once designed to confuse and trap enemies now weave an intriguing journey for visitors. Through wars, earthquakes, fires and times of peace, the Castle of the White Heron stands as a serene monument to Japanese culture. LE CHÂTEAU DE HIMEJI / LE CHÂTEAU DU HÉRON BLANC

🏰 Surplombant majestueusement la ville japonaise de Himeji, l'époustouflant château de Himeji est un joyau architectural inscrit sur la liste du patrimoine mondial de l'UNESCO. D'abord construit comme une forteresse en 1333, vers la fin d'une époque de guerres civiles, le château a subi plusieurs transformations au fil des siècles. En 1600, une reconstruction majeure a été entreprise, donnant naissance à la structure qui a été préservée dans son intégrité jusqu'à aujourd'hui, d'abord par les maîtres féodaux, puis par le gouvernement japonais. Les dédales de chemins complexes autrefois conçus pour confondre et piéger les ennemis tissent aujourd'hui un parcours intrigant pour les visiteurs. À travers les guerres, les tremblements de terre, les incendies et les périodes de paix, le château du héron blanc se dresse comme un monument serein de la culture japonaise. Découvrez les détails complexes du donjon principal et l'histoire du château au fur et à mesure de la construction.

CASTILLO DE HIMEJI / CASTILLO DE LA GARZA BLANCA

🏰 Con el panorama más majestuoso de la ciudad japonesa de Himeji, el impresionante Castillo de Himeji es una gema arquitectónica a la que la UNESCO ha declarado Patrimonio de la Humanidad. Construido originalmente como una fortaleza en 1333 con la intención de poner fin a una era de guerras civiles, el castillo ha sufrido múltiples transformaciones a lo largo de los siglos. En el año 1600 se inició una importante reconstrucción que tuvo como resultado la estructura que conocemos hoy, de cuya preservación se encargaban inicialmente los señores feudales y, en fechas más recientes, el Gobierno japonés. Laberintos de embrollados senderos diseñados en su día para confundir y capturar a los intrusos ofrecen ahora un peculiar recorrido a los visitantes. El paso del tiempo ha traído guerras, terremotos, incendios y épocas de paz, y el Castillo de la Garza Blanca permanece como un sereno monumento a la cultura japonesa. Descubre los intrincados detalles de la torre mayor y la historia del castillo a medida que construyes.

A TRIBUTE TO A REVERED LANDMARK

🍷 "2023 marks the 30th anniversary of Himeji Castle's inscription to UNESCO's World Heritage list, and its architecture and history are still like a mystery to decode. We created the Main Keep as a natural focal point and played with proportions and scales to make it stand out. If you have visited the castle you may recognize some of the interiors, and if you haven't seen it in person, we hope it sparks your imagination and curiosity."

AN OPTICAL ILLUSION

🍡 Himeji Castle's roofing method uses interlocking black rectangular and semicircular tiles. Several layers of white clay line the tiles, giving the roofing a high-contrast, mesh-like appearance up close. However, at a distance, the mesh pattern appears gray. The roof tiles in this set are *Dark Stone Gray* to reflect the aging of the tiles.

UNE ILLUSION D'OPTIQUE

🍡 La méthode de toiture du château de Himeji utilise des tuiles noires rectangulaires et semi-circulaires imbriquées. Plusieurs couches d'argile blanche bordent les tuiles, ce qui donne à la toiture un aspect contrasté et maillé de près. Cependant, à distance, le motif de maillage semble gris. Les tuiles de cet ensemble sont de couleur *Gris pierre foncé* afin de reproduire le vieillissement des tuiles.

UNA ILUSIÓN ÓPTICA

🍡 Para hacer los techos del Castillo de Himeji se utilizaron tejas negras rectangulares y semicirculares entrelazadas. Las tejas están recubiertas con varias capas de arcilla blanca, lo que da al techo la apariencia de una retícula de alto contraste cuando se mira de cerca. No obstante, a la distancia solo se aprecia una superficie gris. Las tejas del techo de este set tienen un tono gris piedra oscuro para reflejar el envejecimiento.
