WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

From the LEGO® Icons Design Team

Creativity is always the daily special on the menu at the LEGO® Icons Café Fleur. As the new owner, you get a café packed with details and expressions inspired by both classic architecture and world travel. From the brick-built sidewalk to the interior decor, it's an artistic rendition of a traditional café, set in a historical building in an urban environment – with lots of little LEGO twists!

We developed new building techniques to capture as many authentic details as possible and make sure the model still fits on your bookshelf. You will also find lots of LEGO elements in green and peach colors for the first time. The main focal point of the model is the entrance, and all decorations are printed, including some of the new window pieces and transparent elements. Maybe this building experience will inspire you to create your own special builds?

Un mot de l'équipe de conception LEGO® Icons

La créativité est toujours le plat du jour au menu du Café Fleur LEGO® Icons. En tant que nouveau propriétaire, vous héritez d'un café plein d'expressions et de détails inspirés de l'architecture classique et des voyages. Du trottoir en briques à la décoration intérieure, ce modèle est une interprétation artistique d'un café traditionnel, installé dans un bâtiment historique situé dans un environnement urbain, avec de nombreux petits détails LEGO!

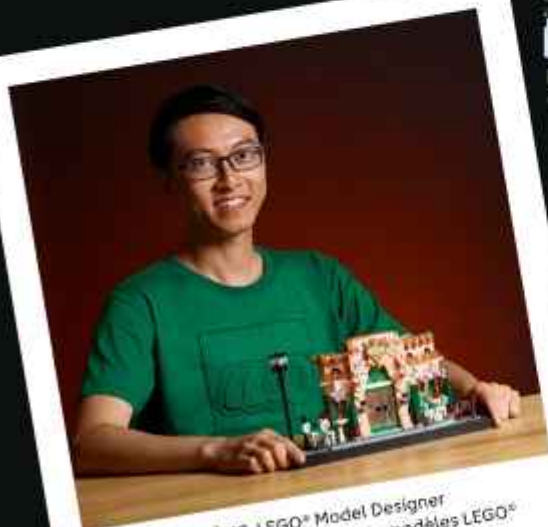

Nous avons développé de nouvelles techniques de construction pour reproduire autant de détails authentiques que possible tout en veillant à ce que le modèle tienne sur une étagère. Vous trouverez également de nombreux éléments LEGO offerts dans les couleurs vert et pêche pour la première fois. Le point central du modèle est l'entrée, et toutes les décorations sont imprimées, notamment certains des nouveaux éléments de fenêtre et des éléments transparents. Peut-être que cette expérience de construction vous inspirera à créer vos propres constructions uniques?

Impresiones del equipo de diseño de LEGO® Icons

La creatividad es siempre el plato del día en el Café Fleur LEGO® Icons. Ahora eres el nuevo propietario de una cafetería repleta de expresiones y detalles inspirados tanto en la arquitectura clásica como en los viajes por el mundo. Desde la banqueta construida con bricks hasta la decoración interior, es una interpretación artística de una cafetería tradicional establecida en un edificio histórico de cualquier ciudad, ¡con montones de giros al estilo LEGO!

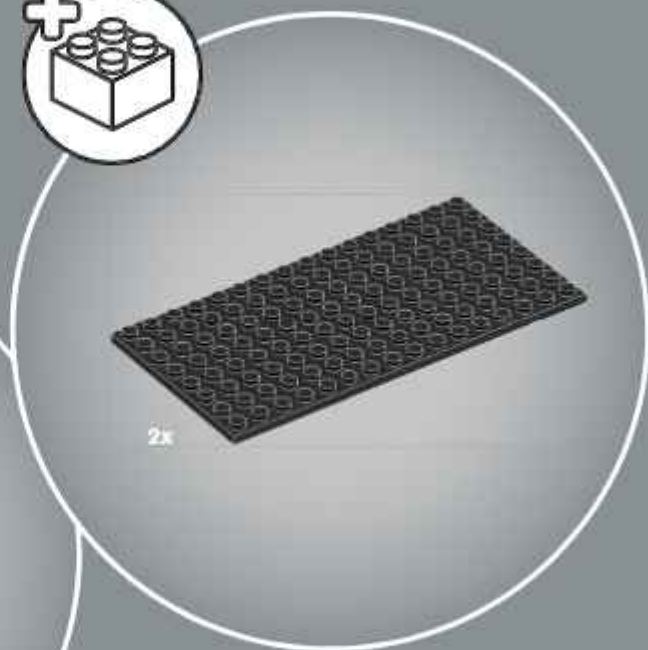

Desarrollamos nuevas técnicas de construcción para capturar con autenticidad el mayor número posible de detalles y asegurarnos de que el modelo pudiera caber en tu librero favorito. También encontrarás, por primera vez, muchos elementos LEGO en colores verde y durazno. El centro de atención del modelo es la entrada, y todos los adornos cuentan con motivos impresos, incluidas las nuevas piezas de las ventanas y los elementos transparentes. ¿Será esta experiencia de construcción la inspiración que necesitas para dar forma a tus propias creaciones especiales?

Each mini build alternates between building directions to nest nicely together.

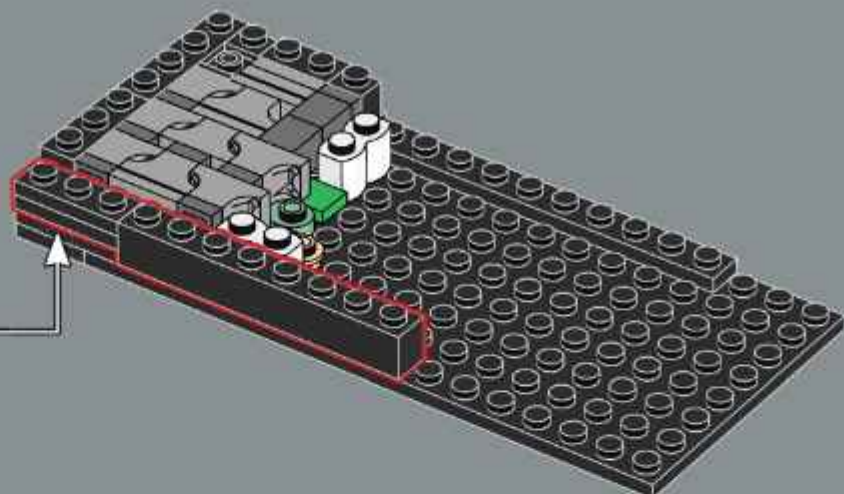

La direction de chaque miniconstruction alterne pour permettre aux miniconstructions de s'emboîter les unes dans les autres.

En cada minimodelo se alterna la dirección de la construcción, lo que produce un efecto de gran estética una vez que estos se acoplan.

The angle here is achieved by using reflected triangles. This geometry makes the elements fit perfectly to create the angled wall you'll see later.

L'angle ici est réalisé en utilisant des triangles réfléchis. Cette géométrie permet aux éléments de s'emboîter parfaitement pour créer le mur angulaire que vous verrez plus loin.

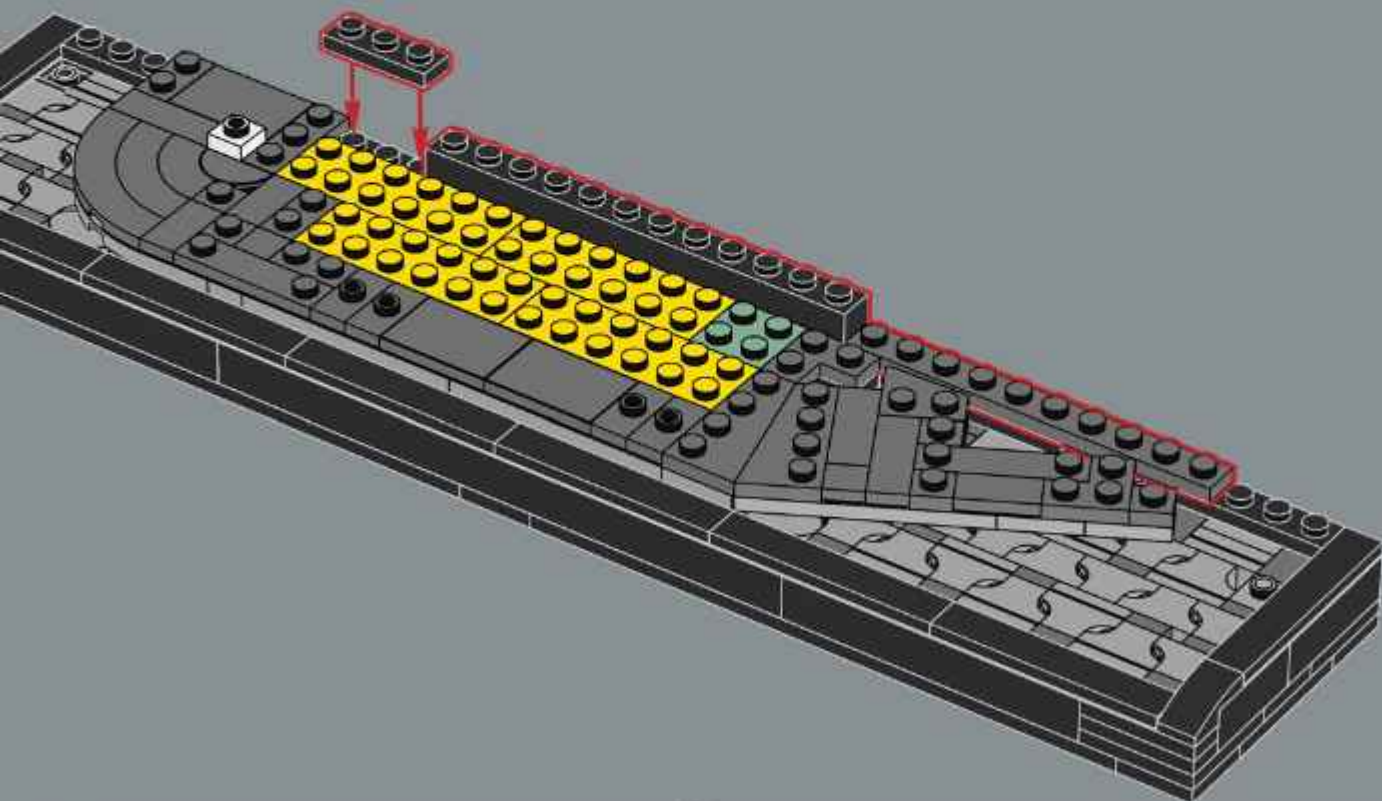

Este ángulo se logra usando triángulos reflejados. La geometría resultante hace que los elementos embonen a la perfección para crear la pared oblicua que verás más adelante.

The brick-built arch here is achieved by nesting the new 1x2 slope elements in combination with plates. It creates a realistic texture and pattern as often seen in main entrances.

Este arco construido con bricks es el resultado de combinar placas con los nuevos elementos 1x2 con pendiente. De este modo, recreamos con gran realismo la textura y el patrón que es común ver en algunas entradas principales.
